

MAY/JUNE 2022

Chiropractic Continuing Education Seminars

Join us **virtually or in-person** for our latest round of continuing education seminars with all new topics and guest speakers. Sessions are approved for two credits by the MN Board of Chiropractic Examiners. Sessions are free and lunch is provided if attending onsite.

Wednesday, May 11, 12 pm

**DR. MICHELLE A. MICK,
BSC, DC, DACBR, DIPMED
SECOND SIGHT RADIOLOGY**

Diagnostic Radiology – Case-Based Review of the Spine and Extremities

1 X-ray Credit

Dr. Mick has lectured extensively throughout Europe and North America on all aspects of imaging, from basic imaging reviews to special imaging interpretation. She has a private chiropractic film-reading practice specializing in consulting with chiropractors internationally, as well as being part of the secondsightradiology.com chiropractic radiology team, providing imaging interpretation for clinicians, the majority of whom are DCs.

Wednesday, May 11, 1 pm

**BENJAMIN KOTHE, L.AC
ACUPUNCTURIST
SUNDIAL ACUPUNCTURE**

The Power of Integration and Why I Need to Send My Patients to You

1 Acupuncture Credit

Ben has a master's degree in Traditional Chinese Medicine which aids his practice in incorporating modern scientific knowledge and the ancient healing wisdom of the past. Ben serves his patients with the empathy and compassion of one who understands the psychological and physical pain that comes with illness.

Wednesday, June 15, 12 pm

**ERIK WILLER, ATTORNEY
AT TSR INJURY LAW**

Ethics and Professional Boundaries

1 Ethics & Professional Boundaries Credit

This session will focus on appropriate doctor patient relationships and areas where misunderstandings are common; social media interactions, the start and end of the doctor/patient relationship, clinic conduct and procedures, understanding and respecting cultural diversity. We will also discuss the financial relationship with patients, payment arrangements and collection practices.

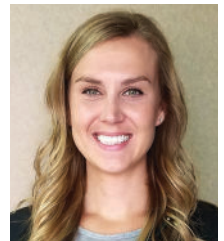

Wednesday, June 15, 1 pm

**MELISSA WICK, PT, DPT
ABBY REGAN, OTD, OTR/L
NATIONAL DIZZY AND
BALANCE CENTER**

A Multidisciplinary Approach to Concussion Rehabilitation

1 General Credit

Melissa is passionate about treating vestibular and balance disorders and she enjoys being an active part of each patient's rehab journey. Abby has been interested in working with those with concussion and brain injuries from the beginning of her undergraduate studies and is passionate about getting people back to their activities after head injury.
